PROBLEM STATEMENT

What problem or need did you identify?

Problem Identified

Banasthali Vidyapith — one of India's largest residential women's universities — has no unified digital hub. Information scatters across WhatsApp, physical boards & static sites, causing missed announcements, zero remote campus visibility, and no structured mentorship, recognition, or alumni connection for its 28,000+ students.

Who Experiences This?

Students

Miss notices, lack mentorship

Parents & Visitors

Can't explore campus remotely

Alumni

No digital legacy or network

Institution

No transparency or feedback loop

Current Solutions & Their Limitations

01

Static Website

Rarely updated, no real-time info or interactivity

02

WhatsApp Groups

Chaotic, unverified, info easily missed or lost

03

Physical Boards

Inaccessible remotely, outdated, cluttered

TIP: Support your problem statement with research or real customer insights

BUSINESS IDEA & SOLUTION

Your Business Concept

CampusVerse is a unified digital ecosystem for Banasthali Vidyapith — combining virtual campus tours, real-time notices, AI chat, peer recognition, mentorship, alumni records, and a review forum into one powerful platform.

What Makes It Unique?

Built exclusively for Banasthali's culture and community — with AI moderation, anonymous mentorship (TalkNest), a student achievement wall (RiseWall), and 360° campus immersion. No generic college app does all of this in one place.

How Does Your Solution Work?

360° Virtual Tour — Panoramic campus exploration

AI Chatbot — Instant answers to campus queries

Notex Noticeboard — Live admin-managed announcements

RiseWall — AI-moderated achievement wall

TalkNest — Anonymous senior–junior mentorship

Alumni Scroll — Legacy & network showcase

VALUE PROPOSITION

What unique value does CampusVerse deliver to its users?

CORE VALUE

CampusVerse replaces 7 scattered tools with 1 trusted platform — delivering verified communication, immersive campus access, AI support, peer mentorship, achievement recognition, alumni networking & institutional feedback in a single B2B SaaS ecosystem.

JOBS TO BE DONE

Customer Jobs

- Explore campus remotely via 360° Unity tour
- Get verified real-time notices (Notex)
- Find anonymous mentorship (TalkNest)
- Showcase achievements & build careers (RiseWall)
- Stay connected as alumni (Alumni Scroll)

PAIN RELIEVERS

What We Eliminate

- Missed notices via chaotic WhatsApp groups
- Zero campus visibility for parents & outsiders
- Fear of judgment when seeking guidance
- No record or recognition for student wins
- Fake news & unverified campus information

GAIN CREATORS

What We Create

- Strong digital campus identity & pride
- 24/7 AI support reducing admin workload
- Trusted alumni–student career network
- Transparent institutional feedback loop
- Scalable B2B SaaS revenue for CampusVerse

TIP: A strong value proposition clearly communicates who benefits, how, and why it matters

CUSTOMER SEGMENTS

- View 360° Campus Tour.
- View notices on Notex.
- Share achievements on RiseWall.
- Post anonymous doubts in TalkNest..
- Connect with Alumni Scroll.
- Post Reviews.
- Ask queries using Chatbot.

Faculty

- View 360° Campus Tour.
- View Notex notices.
- See student achievements on RiseWall.
- View Alumni Scroll.
- Add Reviews.
- Use Chatbot.

University Administration

- Add/update 360° Tour
- .Add and delete Notex notices.
- Moderate Talknest discussions.
- Delete achievements.
- Add/update/delete Alumni profiles.
- Delete Reviews.
- Train Chatbot.

Visitors

- View 360° Campus Tour.
- Browse Alumni Scroll.
- View Reviews.
- Ask queries using Chatbot.

REVENUE STREAMS

How will your business make money?

Revenue Model

Primary Revenue Source :

- University pay a yearly or monthly fee to use CampusVerse.
- University partner with CampusVerse to manage notices, student engagement, alumni network, and campus information in one platform

Pricing Strategy:

Additional Revenue Streams:

CHANNELS

How will you reach and communicate with customers?

Awareness

- Promotion through university orientation programs for new students.
- Awareness through social media platforms and student communities.
- Demonstrations during collage tech events.
- Word of mouth among students and faculty.

Evaluation

- CampusVerse official website to explore features
- Product demo for university administration.
- Feature explanation of modules.
- Feedback from early users and testers

Delivery

- Web-based platform accessible on laptops and mobiles.
- Login through verified university email ID.
- Cloud-based system for real-time updates

Purchase

- Partnership with the university administration.
- Platform setup and integration with university systems.
- Selection of suitable pricing plan

After Sales

- Technical maintenance and bug fixing.
- Regular software updates and feature improvements.
- Feedback collection from students and teachers.

CUSTOMER RELATIONSHIPS

How will you acquire, retain, and grow your customer base?

Acquisition

How will you get customers?

Retention

How will you keep customers?

Growth

How will you grow revenue per customer?

KEY RESOURCES

What assets are essential to make your business work?

Physical Resources

[Equipment, facilities, inventory, technology infrastructure]

Intellectual Resources

[Patents, trademarks, proprietary data, brand, partnerships]

Human Resources

[Key team members, skills needed, advisors]

Financial Resources

[Startup capital, funding sources, financial runway]

KEY ACTIVITIES

What critical actions must you excel at?

Production/Operations:

[What do you need to make or deliver your product/service?]

Problem-Solving:

[What ongoing challenges must you address?]

Platform/Network:

[If applicable - managing marketplace, community, or network]

Marketing & Sales:

[How will you attract and convert customers?]

KEY PARTNERSHIPS

Who are your essential partners and suppliers?

Strategic Alliances:

[Who could you partner with to enhance your offering?]

Key Suppliers:

[Who provides critical resources or components?]

Distribution Partners:

[Who helps you reach customers?]

Why These Partnerships Matter:

[What value do they provide? Cost reduction? Access to resources? Market reach?]

COST STRUCTURE

What are your most important costs?

One- time Costs (*Development cost*)

- Frontend & backend development for CampusVerse modules
- Integration of AI chatbot and ML-based notice ranking
- Designing immersive 360° virtual campus in Unity
- Department information, campus maps, alumni data
- User interface design for students, parents, teachers, and admin
- Authentication system for verified users (@banasthali email login)

Ongoing Costs (*Operational Phase*)

- Hosting servers for website and AI chatbot
- Maintenance of Campus Bot and trending notice algorithm
- Bug fixes, software updates, feature improvements
- Admin monitoring for posts, reviews, and RiseWall content
- Promotion in universities and onboarding new campuses

MARKET ANALYSIS & COMPETITION

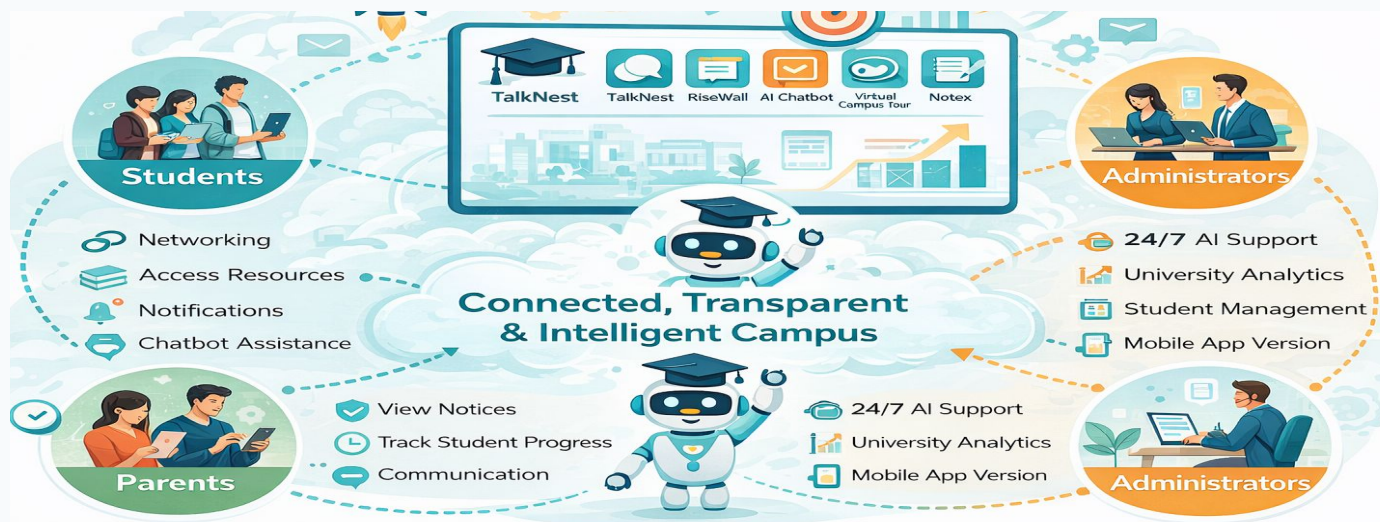

Market Size & Opportunity :

- Increasing demand for AI-powered campus support systems.
- Target users: Students, Parents, Teachers, Visitors
- CampusVerse can expand from Banasthali Vidyapith to other universities across India.

Existing Solutions :

- **Google Maps** – only navigation, no campus ecosystem
- **LinkedIn** – professional networking but not campus-specific

How You Stand Out :

IMPLEMENTATION & NEXT STEPS

1. Immediate Next Steps (0-3 months):

Implement core modules: Notex, TalkNest, RiseWall.
And then test the platform for banasthali students.

2. Short-term Goals (3-6 months):

Launch 360° Virtual Campus Tour, Integrate alumni networking system, Improve AI chatbot accuracy,
Reach **1000+ active student users**

3. Medium-term Vision (6-12 months):

Expand CampusVerse to other universities in India,
Introduce mobile application version,
Add AI analytics for university administration.

4. Key Milestones:

-  **5000+** registered users
-  **10+** university partnerships
-  **95%** notice authenticity through Notex,  **24/7 AI** support through CampusBot

THANK YOU
